ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: SELECTIVE NPY (Y5) ANTAGONISTS

(57) Abstract: This invention is directed to bicyclic and tricyclic compounds which are selective antagonists for NPY (Y5) recep-
tors. The invention provides a pharmaceutical composition comprising a therapeutically effective amount of a compound of the
invention and a pharmaceutically acceptable carrier. This invention provides a pharmaceutical composition made by combining a
therapeutically effective amount of a compound of this invention and a pharmaceutically acceptable carrier. The invention provides
a process for making a pharmaceutical composition comprising combining a therapeutically effective amount of a compound of the
invention and a pharmaceutically acceptable carrier. This invention further provides the use of a compound of the invention for the
preparation of a pharmaceutical composition for treating an abnormality, wherein the abnormality is alleviated by decreasing the
activity of a human Y5 receptor.
